

# **Expedited Professional and Engineering Support Services (EXPRESS) Programmatic Domain - Small Business**

## **Overview**

The Programmatic Domain of the Expedited Professional and Engineering Support Services (EXPRESS) Program is a multiple award Blanket Purchase Agreement (BPA) leveraging commercial processes and innovative enhancements established within the General Services Administration (GSA) schedules program to incorporate dynamic teaming arrangements and to offer the right mix of professional and technical advisory and assistance services to authorized government users.

## **Scope**

The EXPRESS contract provides services necessary for programmatic support in monitoring, assessing, coordinating, analyzing, and integrating component programs/activities, including briefings/presentations and agendas for the total life cycle of the systems. Other areas supported include Advanced Technology Demonstrations (ATDs), Advanced Concept Technology Demonstrations (ACTDs), Non-Developmental Items (NDIs), Commercial Off-the-Shelf (COTS) and other acquisition streamlining initiatives.

Performance also includes providing input, advice, and recommendations to special teams formed to provide expeditious resolution of programmatic problems. Services may be required at its own facility (offsite) or at a duty station at any U.S. Government facility or other designated facilities (on-site) within the Continental US (CONUS) or outside the Continental US (OCONUS), as specified by individual task orders.

## **Principal Performance Work Statement Areas**

- Resource Management Support
- Cost Estimating / Analysis
- Schedule Development / Assessment
- Program Management, Plans & Integration
- Strategic Planning Analysis
- International Program Support
- Security Assistance Program Support
- Operations Research and Systems Analysis

# Expedited Professional and Engineering Support Services (EXPRESS) Logistics Domain - Small Business

## Overview

The Programmatic Domain of the Expedited Professional and Engineering Support Services (EXPRESS) Program is a multiple award Blanket Purchase Agreement (BPA) leveraging commercial processes and innovative enhancements established within the General Services Administration (GSA) schedules program to incorporate dynamic teaming arrangements and to offer the right mix of professional and technical advisory and assistance services to authorized government users.

## Scope

The EXPRESS contract provides services including special logistics analyses that embrace the total logistics/maintenance operations of Army managed/supported systems, perform independent analyses, including formulating and recommending alternative solutions to logistics problems. In the execution of these efforts, services include evaluation, analysis, critique, and/or assessment of the technical aspects of work performed. Life cycle logistics activities may include: performance based logistics support, unique item identification support, training plan support, Human Systems Integration (HSI) strategy support, manpower estimate support, interoperability support, product support planning and capability support, integrated scheduling support, asset and property management support, and special kits, outfits, sets, tools, measurement and diagnostic equipment support. In addition, cost estimating efforts, based on data to be furnished by the Government, may be required.

Performance may be required at its own facility (offsite) or at a duty station at any U.S. Government facility or other designated facilities (on-site) within the Continental US (CONUS) or outside the Continental US (OCONUS), as specified by individual task orders.
